

Interdisciplinary Transportation Group(ITG) Presents*

Speaker Series for January 2016 - Torian Auditorium -Jordan Bldg. Two Seminar Sessions on-Savannah Harbor Expansion Project (SHEP)

Olli Himbert, P.E.

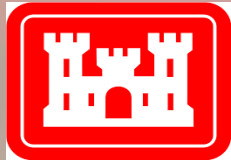

Capital Projects Manager and Facilities Engineer at Georgia Ports Authority

Mr. Himbert is a licensed civil engineer with nearly 15 years of experience in the ports and maritime industry. As the Capital Projects Manager and Facilities Engineer at the Georgia Ports Authority (GPA), Mr. Himbert is responsible for the design and implementation of GPA's capital improvements projects as well as maintenance of GPA's diverse array of facilities which range from wharves, bridges, rail road tracks, container fields, roadways and container fields.

Prior to joining the GPA in 2013, Mr. Himbert spent 12 years working for CH2M HILL, a global engineering and consulting firm, as a structural engineer designing various ports and maritime projects.

Mr. Himbert is a registered Professional Engineer in the state of Georgia. He holds a bachelor's degree in Civil Engineering from the University of Kaiserslautern, Germany and a Master's Degree in Structural Engineering from Clemson University.
