

Interdisciplinary Transportation Group(ITG) Presents*

Speaker Series for February 8th, 2018

Mr. Patrick D. Norris, Senior Traffic Engineering Technician, Jacobs Engineering Group

Title: The Inner Workings of Technology in Traffic

Mr. Patrick D. Norris is a Senior Traffic Engineering Technician and currently works with Jacobs Engineering Group out of Atlanta, GA. He is a native of Augusta, GA and graduated from The Academy of Richmond County High School. His genuine interest and high achievements in the subject area of mathematics is what ignited his passion for his current career field.

Patrick initially attended Middle Georgia State University (then Middle Georgia College) and soon after transferred to Savannah State University where he further matriculated and received his Bachelor of Science in Electronics Engineering Technology in 2007. He began his professional career within his hometown of Augusta, GA working with the "City of Augusta" (local Government entity) in their Traffic Engineering department. There he gained entry level experience as a Traffic Signal Technician. He also received several professional certifications during his tenure such as the TST Level II certification with the International Municipal Signal Association (IMSA).

Mr. Norris has recently accepted an opportunity with his current company to relocate to the Savannah area for the "Savannah Regional Traffic Operations Project." Patrick is also currently pursuing his Master of Science in Project Management from Strayer University. He currently resides west of the Atlanta Metro area with his wife of 9 years and their two beautiful children.
